MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with the Secretary of State,
           7 May 1979 (U)

1. We talked about the Summit. I asked what topics were likely
to come up at the Summit. He indicated ASAT, the possibility of
announcing a reopening of the Indian Ocean negotiations, discussions
about almost all areas of the world where we had some problems with
the Soviet Union, and the extension of various bilateral agreements.
I asked where we could be of help in any of these. He indicated that
we should all sit down together sometime this week and go over just
what needed to be done to get ready for the Summit and who was going
to do it. I recommended that we tack 30 minutes on the front or tail
end of the PRC on Defense Consolidated Guidance on Thursday to do that.
(Remind me to mention this to Brzezinski also on Wednesday.) (S)

2. I raised the question of whether the State Department should
respond to the Indian Government's request for comments on Moynihan's
book (ER 79-7178). The Secretary agreed that that would be an undesirable
thing to do. (C)

3. I told him we had no objection to his releasing information
about the South African nuclear developments as per ███████████ memo
(ER 79-4024).(S)   25X1A

4. I gave him the briefing on the Soviet economy that I had given
to the President. He was very appreciative of it and asked to be kept
posted on the other briefings I gave. I told him I would either give
them to him orally or send him an outline of what they were. I want
to be sure to do that each week. (C)

5. I gave him my draft statement on SALT verification. He said he thought it was coming a lot closer to what he thought was needed. He indicated that he thought the question to this statement would be, "But can you adequately verify?" I told him that I thought we could replay the basic theme as much as they could replay the question. (S)
